DETAILS

Each and every year, pool covers go bad, get thrown out and are polluting the world more and more. As a company that has the opportunity to make a change, the Pool Guys are stepping up to help take care of this world, one thing at a time.

Instead of simply tossing out your old pool cover when buying a new one, bring it to the Pool Guys Warehouse and allow the Pool Guys to recycle and repurpose your cover. You can always pick up your new cover while dropping off your old one, or you can just drop your old cover and go!
